S	55cm - 56cm	21.75" - 22.25"
M	57cm - 58cm	22.25" - 23.25"
L	59cm - 60cm	23.25" - 23.75"
XL	61cm - 62cm	23.75" - 24.75"

Using a tape measure, measure the widest circumference around your head. Run the tape measure slightly above the eyebrows (typically $\frac{1}{2}$ " - 1"), keeping the tape measure horizontal and rounding the head above the ears. Take several measurements to ensure you have the largest circumference. Alternatively, you could use a string and measure it against a ruler. Apply your measurement to the helmet sizing chart to find your recommended helmet size. If a measurement falls in-between a size, go up to the larger size.
